MANUFACTURER'S CARRIAGE MAY APPLY

Other colours

Most items also available in Brown and White. *Contact us for further details.*

Require a SMALLER Gutter...?

We also stock a comprehensive range of 112mm (4-inch) PVC Gutter with 68mm (3-inch) Downpipe. Perfectly suited for domestic applications but will cope equally as well with smaller commercial and light industrial roofs.

Available in Black from stock. *Contact us for a Product List and pricing, or visit our website.*

Require a BIGGER Gutter...?

We also supply a 200mm (8-inch) PVC Gutter with 160mm (6-inch) Downpipe. Primarily for large commercial and industrial applications, this is one of the largest capacity rainwater systems available in the UK. A fully engineered system able to withstand heavy snow loading and wind uplifts for even the most exposed and remote buildings.

Available in Black and Grey. *Contact us for a Product List and pricing, or visit our website.*
