

IDENTIFYING AN EXISTING PROFILE

Over the years literally thousands of different profiles have been manufactured, although the majority are no longer available in rolled form.

If it is essential to match to existing sheets, we can usually identify the profile from information supplied and advise on availability or options if the profile is obsolete.

Please complete <u>ALL</u> Information			What material are you looking to match?	
Pitch		mm	<input type="checkbox"/> Metal Steel	
Depth		mm	<input type="checkbox"/> Glassfibre (GRP)
