

**LOW MAINTENANCE
BATTEN CLADDING
WITH GREAT VISUAL
AESTHETICS**

PRODUCT BROCHURE

Bison composite batten cladding offers the low maintenance, high quality and the robustness you'd expect from a composite building material

KEY FEATURES

VISUAL AESTHETICS

Our **wood plastic composite cladding planks** give the appearance of timber or Cedar slatted cladding with a lifelike woodgrain timber finish available in three colours: Ash Grey, Black or Oak. Combined with colour matched accessories Bison Composite Batten Cladding can be installed Vertically or horizontally.

EASY TO INSTALL

With minimal trims and planks sized ideally for vertical cladding, Bison Batten Cladding is a simple and easy to use system with minimal need for cutting, offering the elegant design and easy installation of Cedar or Siberian Larch cladding with all the benefits of a composite material.

HARD-WEARING

Bison's hard-wearing capping ensures the material stands up to all weather conditions, is UV stable, scratch resistant and non-porous. Being a composite material ensures it is resistant to rot, mould and insects.

MULTI PURPOSE USES

Bison Cladding can be utilised for a wide variety of projects including but not limited to cladding, slatted fencing, internal feature walls or even planters.

LOW MAINTENANCE

Low maintenance product that will not need staining or painting. Simply hose or jet wash clean when required.

ENVIRONMENTALLY FRIENDLY

Manufactured from 82% recycled material (wood fibre and HDPE plastic). Remaining ingredients are additives for bonding, UV stabilisers and colour pigments.
